

FABRICWALL

From Folded to Fabulous in Seconds.

FabricWall goes from folded to fabulous in 10 seconds flat. The graphic fabric panel comes attached to the frame. Magnetic locks snap the structure into place. All you have to do is pull it up and watch your message burst open. Make it double-sided for maximum impact. The wrinkle-resistant graphic panel attaches to the structure with Velcro so you can swap graphics in a flash. Premium print quality guarantees vibrant visuals every time. And this super-lightweight, super-portable billboard-in-a-bag knocks down into a nylon duffel for easy transport. Make a big statement. Effortlessly.
